

SPECIAL INSTRUCTIONS

PM-351 Erosion Mask Set for Cessna 550 Citation II & 560 Citation V Horizontal Stabilizer Tips

Two PM-351 Erosion Masks are joined together and mounted on a common hard plastic support form. After separation, one piece will protect the right tip and one the left tip.

The thin film can be cut with a sharp blade before removing the staples. If preferred, they can be divided by cutting with scissors after the staples are removed and the joined masks lifted from the hard plastic.
