

SPECIAL INSTRUCTIONS

PM-367 Erosion Mask Set for Piper PA-31T, PA-31T1, PA-31T2 Horizontal Stabilizer Tips

Two PM-367 Erosion Masks are joined together and mounted on a common hard plastic support form. After separation, one piece will protect the right tip and one the left tip.

The thin film can be cut with a sharp blade before removing the staples. If preferred, they can be divided by cutting with scissors after the staples are removed and the joined masks lifted from the hard plastic. (See Figure 1.)
