

**SPECIAL INSTRUCTIONS**

**PM-710 Erosion Mask Set for  
Beechjet 400 and MU-300  
Nav Light Lenses**

Two PM-710 Erosion Masks are joined together and mounted on a common hard plastic support form. After separation, PM-710 R will protect the lens at the right wing tip and PM-710 L will protect the lens at the left wing tip.

The thin film can be cut with a sharp blade before removing the staples. If preferred, they can be divided by cutting with scissors after the staples are removed and the joined masks lifted from the hard plastic. (See Figure 1.)
